

PROJECT TITLE: Lid Assembly

PART: Medical Disposal Lid

PROJECT DESCRIPTION: Pre-assembled parts are manually loaded into machine which automatically clamps, welds, lubricates, tests and accepts or rejects completed assemblies.

FEATURES:

- 5 second cycle time
- Turn-key integration into a two stage ultrasonic welding process
- Automatic bulk unload/reject
- Inductive Pallet ID system
- Power and Free pallet transfer system

BENEFITS:

- Increased production rate with decreased labor requirement
- Accurate pass/reject tracking with pallet ID system
- Minimized manual product handling
